Who am I?

Hi, I'm Clara and I'd love to capture some memories for you!

I waited 23 years to meet my best friend Echo, a whippet, but my love for animals – particularly dogs and horses – goes way back to my childhood. I spent a lot of my days taking care of my own horses and finding any excuse to spend time with family members' dogs. I couldn't have my own dog until I moved into my own home, but he was more than worth the long wait. Echo has opened up my world to so many wonderful dog-centered activities as we have done so many things together: showing, obedience, lure coursing, swimming... way more than I can list here. I now have two whippets as Tee joined our family in 2018 as I really wanted to give Echo a little brother, but Tee now towers over him! It's safe to say that nowadays my life is completely filled with dogs, and I wouldn't have it any other way.

Echo and Tee have shown me the importance of capturing the moments you share with your dogs and freezing them in time. My photography aims to showcase the individuality of each and every dog, as well as the unique bond you share with them. Some of my most treasured images are those of me with my boys, so I want to provide you with your own special pieces that you can hang up and smile at each time you look at them.

I'm so proud of my journey to becoming a dog photographer, and I'm extremely excited about what the future holds. My images first caught people's eye on social media and people began to ask if I could photograph their dogs just like I captured Echo and Tee. Only a few years later, I am now a qualified Licentiate with the British Institute of Professional Photography (BIPP) and have won multiple awards with some of the most prestigious photography organisations in the UK.

I look forward to meeting you and your dog soon!
